Meeting Today's Challenges in Your PASS Program or EBD Classroom

August 27, 2015 (8:30 – 3:30 CDT)

Workshop #013-16

Green River Regional Educational Cooperative • 230 Technology Way • Bowling Green

Students with severe emotional and behavior disorders often show patterns of disconnectedness from school, academic failure, poor school adjustment, and involvement with the criminal justice system. Because of traditional or out of school placements, these students are not adequately experiencing general educational instruction with their peers. Effective, cohesive programming is necessary and presents various challenges that require an understanding of the issues faced by students with EBD, advanced skills in program implementation, and a comprehensive approach that includes identifying target behaviors, teaching appropriate behaviors and making data-based decisions for individualized program planning. Time will also be spent networking with colleagues in your field.

Learning Targets:

- ***Able to revise current programming based on learning targets, enduring skills and self-reflection***
- ***Able to refine knowledge of data-based decision making***
- ***Able to coach students and teachers using evidence-based practices***
- ***Able to discuss PGES and Student Growth Goals***

Audience:	**Current PASS Coaches and EBD Teachers**
Presenters:	**Kathy Maciel, GRREC and Jennifer Roy, Hardin County Consultant**
