Leadership for High Quality Teaching and Learning

Conceptual Building Blocks

July 15-16 (Warren County Board Office), September 16-17 (GRREC), November 18-19 (GRREC), 2014

Workshop #128-14

Green River Regional Education Cooperative
230 Technology Way Bowling Green

GRREC Special Education Division is pleased to present Conceptual Building Blocks, a 6-day training for K-5 teachers of mathematics. Through modeling, rich discussion, and hands-on activities, participants will develop a deep conceptual understanding of mathematical concepts in number, operations, and fractions. There are three modules: addition/subtraction (2 days), multiplication/division (2 days), and fractions (2 days). In addition to the 6 sessions, participants will receive one-on-one follow-up support through coaching visits at their school sites.

To support learning, participants will receive 3 books (listed in Materials section) along with electronic copies of all centers, learning tasks, and other activities for use with their students. These sessions are intended to strengthen core mathematics instruction as well as to offer strategies that address the needs of students in intervention or students with disabilities.

Presenters will be GRREC's Special Education Mathematics Consultants: Jennifer Clemmons, Rebecca Gaddie and Randi Womack.

For: K-5 General Education Teachers, Special Education Teachers, and Interventionists
Registration for two individuals who work as a co-teaching team is highly recommended

Dates: **July 15-16 (Warren County Board Office), September 16-17 (GRREC), and November 18-19 (GRREC), 2014**
8:30-3:00 Central Time
Green River Regional Education Cooperative 230 Technology Way, Bowling Green
Registration and continental breakfast begin at 8:00. Lunch and snacks will be provided.

Registration/Materials Fee: Non-GRREC Member $500
GRREC Member $250

Materials: *Teaching Student-Centered Mathematics*, John Van de Walle
