

CareerScope[®] Online

With almost 50 years of experience developing world-class assessments, Vocational Research Institute has developed an online assessment program that measures both aptitude and interest through valid and reliable assessment tasks. CareerScope results are instrumental in helping an individual begin the career or educational planning process.

Valid and Reliable Interest and Aptitude Tasks

The CareerScope **Interest Inventory** measures and identifies the evaluatee's attraction to careers that correspond to the U.S. Department of Labor's Interest Areas:

- Artistic
- Plants/Animals
- Mechanical
- Business Detail
- Accommodating
- Lead/Influence
- Scientific
- Protective
- Industrial
- Selling
- Humanitarian
- Physical Performing

The results from the Interest Inventory are compiled into a comprehensive Individual Profile Analysis that objectively identifies each evaluatee's most significant interest area preferences. *This analysis is unique to VRI assessment products.*

The **Aptitudes** measured by CareerScope are the most critical for today's high growth and high replacement rate occupations, as well as for the emerging careers of the 21st century. The aptitudes measured are:

- General Learning Ability
- Verbal Aptitude
- Numerical Aptitude
- Spatial Aptitude
- Form Perception
- Clerical Perception

Powerful and Flexible Reporting System

CareerScope's **Assessment Profile** provides career recommendations based upon the overlap of the evaluatee's high interest and high aptitude areas. These recommendations can be presented in three formats: GOE/DOT, O*NET, or U.S. Department of Education's Career Cluster/Pathway system. Easy-to-follow **Summary Reports** highlight the key information from the more in-depth Assessment Profile.

CareerScope's assessment results are easily accessible. Reports can be previewed and printed from the Management System individually or in groups, or can be printed directly from the workstation upon completion of the assessment. Full legends are available to assist in the interpretation of results. In addition, reports can be saved as electronic documents.

Easy to Use and Manage

For Evaluatees

- 4th grade reading level
- Easy-to-follow instructions and practice items
- Multimedia orientation to the assessment process
- Mouse proficiency Speed Trial
- Tasks are presented in a standardized format, regardless of computer, operating system, or monitor
- Results are immediately available upon completion of the assessment

For Staff

- Customize assessment delivery configurations for individuals or groups
- Customize report configurations for both evaluatee printing and Management System printing
- Data Management: easily view, sort, edit, or delete records
- Pre-register evaluatees for customized delivery conditions
- Online account management and portal control
- No software installation burden for IT staff

A History of Helping People Pursue Their Potential

Audio Delivery: Includes a friendly voice that presents directions during practice and assessment activities and reads the Interest Inventory Items.

Untimed Delivery: For evaluatees with reading difficulties, Numerical Reasoning and Word Meanings can be administered as untimed assessments, providing as much time as needed to finish the two tasks that emphasize reading comprehension.

English with Spanish: presents the Interest Inventory, Numerical Reasoning and Word Meanings items in Spanish text. This feature assists evaluatees whose Spanish language skills exceed their English language skills.

- Windows or Macintosh operating system
- Browser: Microsoft Internet Explorer 7.0+, Mozilla Firefox 3.0+, Apple Safari 3.0+, Google Chrome 2.0+
- Adobe Flash Plug-in required for the web browser (*free download available*)
