

KDE Equity Work Session

Friday, October 23, 2015

Workshop #044-16

Green River Regional Educational Cooperative • 230 Technology Way • Bowling Green

KDE is hosting this work session to support districts and schools in beginning the process of developing equitable access plans. On June 1, 2015, the Kentucky Department of Education (KDE), along with all states, was required to submit to the United States Education Department (USED) a plan to ensure that poor and minority children are not taught at higher rates than other children by inexperienced, unqualified, or out-of-field teachers. As part of this plan, districts and schools are charged with the task of analyzing their own data related to equitable access issues, determine root causes and develop solutions. Strategies to address the identified inequities will be a required diagnostic completed as part each Comprehensive District and School Improvement plans (CDIPs and CSIPs). This diagnostic must be completed in December of 2015.

While attendance in highly encouraged, it is not mandatory. Each district is encouraged to send a team of five to this working session. The team should be comprised of one teacher leader, one principal, the district PGES contact and up to two other participants of the district's choosing.

Work Session Draft Overview

- Overview of Kentucky's Equitable Access to Effective Educators plan
- Review of data – including Equity Tab in the School Report Card
- Root Causes Analysis
- Strategy Development
- Review of Equity Diagnostic in the CDIPs and CSIPs

What to Bring – Teams should bring relevant district and school data. Possible data sources are included below. This is not an exhaustive list, but should be viewed as potential sources.
