## Overview of Training Series

These sessions include unprecedented access to nationally recognized PLC and RTI expert Mike Mattos, who co-created the **RTI at Work™** model, which builds on the foundation of the PLC at Work™ process. This model uses team structures and a focus on learning, collaboration, and results to drive successful outcomes. Mattos has successfully implemented RTI in a challenging setting—often with limited personnel and dwindling resources. This series will help you create a tiered system of support, that includes:

- Tier 1: Core instruction that ensures all students have access to rigorous essential grade-level curriculum, highly effective teaching, and embedded academic/behavior support
- Tier 2: Supplemental interventions that support students in grade-level curriculum, immediate prerequisite skills, and academic/social behavior expectations
- Tier 3: Intensive interventions that develop foundational prerequisite academic skills (reading, number sense, writing, and English language) and behaviors without removing students from essential grade-level curriculum

## Methods of Delivery

### **On-site training sessions:**

- Join in person at the Green River Regional Educational Cooperative
- Join via a live stream, broadcast by The Center for Education Leadership
