

Green River Regional Educational Cooperative
PASS Implementation Training

September 5, 2014

Workshop #027-15

Green River Regional Educational Cooperative • 230 Technology Way • Bowling Green

Audience: New PASS Teams **including** school administrator(s)

The PASS program is founded on the belief that children with emotional and behavioral disabilities benefit behaviorally from educational experiences with non-handicapped peers and academically from participation in the general curriculum. Designed by a behavior specialist and a licensed psychologist who together have over 40 years of educational experience, PASS was developed to provide students with serious emotional disturbance individualized programming that incorporates best practices in serving youth with SED.

Program methodology focuses on teaching/coaching students to behave appropriately in general education or resource classrooms with the help of a teacher trained as a Behavior Specialist. The program is implemented in three phases (1) Pre-Placement, (2) Orientation, and (3) Maintenance and Inclusion.

Participants will:

- *Develop an action plan for implementation*
- *Learn the phases of the PASS program*
- *Establish roles of PASS team members*
- *Learn how to use systematic collection and analysis of data to guide educational decisions for students using a function-based approach.*

Presenter (s): Kathy Maciel, GRREC and other PASS Coaches
